1. Physics is further divided into Physics I (high-energy, particles, space) and Physics II (materials).

2. The field may be changed to reflect your research topic.

3. Those whose doctorate degree dates back to the year FY2000 or earlier and those who have special circumstances regarding their research background should indicate this.

Note any special circumstances that may relate to work experience or years of postdoctoral research activities.

4. Prepare your final research topic proposal making sure to take into account the host laboratory's research field.

5. Fill in the blank only if you have a second choice.
